

SEC ACTS ON SINO FRESH AND REVOKES STOCK REGISTRATION

VENICE, FLORIDA, May 25, 2011 – On May 25, 2011, the Securities and Exchange Commission (“SEC”) issued its order revoking the registration of the common stock of SinoFresh Healthcare, Inc. (“SinoFresh” or the “Company”). As a result, the Company’s stocks, which had traded in the over-the-counter market and were quoted on the Pink Sheets Electronic Quotation Service under the symbol “SFSH”, will no longer trade publicly.

As previously reported, SinoFresh became delinquent in its annual and quarterly SEC reporting requirements as of Q-3, 2008, primarily as a result of inadequate capital resources to continue to meet the burdensome expenses associated with financial auditing requirements and related expenses of Reporting Companies. The Company subsequently tried to deregister through the filing of a Form 15 on November 1, 2010 which was subsequently withdrawn by the Company on February 14, 2011, after the SEC notified the Company that it believed it was ineligible as the Company had more registered shareholders than is allowable for the utilization of the Form 15. Subsequently the SEC issued a trading suspension order on April 5, 2011. As a viable company with excellent products the Company had communicated with the SEC and repeatedly informed them that it was the Company’s intention to become compliant and that a plan was underway.

The current SEC order can be accessed via the following link

<http://www.sec.gov/litigation/admin/2011/34-64541.pdf>

Stockholders will be able to transfer or sell their shares only in exempt transactions that are in compliance with the United States and applicable state securities laws. Shareholders should consult with their own legal counsel and investment advisors as to any proposed sale or transfer of their shares.

SinoFresh intends to continue to report on all material events by posting such information on its website at www.sinofresh.com. Should the Company be in a position in the future to have its securities once again registered, it can do so by filing the appropriate form of registration statement with the SEC. While there is considerable expense associated with such a registration statement, including the requirement for audited financial statements for the previous three years, the Company is looking into all of its options at this time.

The revocation of SEC registration is not expected to have any immediate adverse effect on the operations of the Company. Management is assessing the Company’s needs going forward and maintaining it’s operations, while it formulates a strategy for moving forward in light of the SEC’s order.
